About Construction Industry Development Council

The Construction Industry Development Council (CIDC), has been set up jointly by the Planning Commission, Government of India and the Indian construction industry. We are an umbrella organization for the construction industry in India and have a national presence with branches across the country.

CIDC undertake a wide range of activities to benefit the construction industry. This includes conducting training at various levels, organizing workshops and conferences, publishing journals and newsletters.

About International Council of Consultants

International Council of Consultants (ICC), as the apex representative organization of consultancy services was constituted under the patronage of Former Chief Justice of India Mr. Y.V. Chandrachud and several other senior luminaries from Engineering Profession, Mr. R.S. Pathak and Former Judge of Supreme Court of India Mr. H.R. Khanna. Dr. P. R. Swarup, is presently the President of ICC.

STEERING COMMITTEE

The steering committee for the ICC Conference 2024 will comprise known industry captains and renowned speakers, ensuring a high-caliber lineup of discussions, workshops, and networking opportunities.

WHY ATTEND

- ▶ Innovative Solutions: Discover new products, technologies, and services that can add value to your projects and business.
- ▶ Skill Development: Attend workshops and seminars led by experts to enhance your professional skills and knowledge.
- ▶ Knowledge Exchange: Learn about the latest trends, technologies, and practices reshaping the future of construction and sustainability.

Networking Opportunities: Connect with industry leaders, innovators, and decision-makers.

ABOUT THE CONFERENCE

The CIDC-ICC Conference 2024 aims to unite distinguished professionals, consultants, and thought leaders from around the globe to discuss, deliberate, and display cutting-edge developments across seven key tracks. Each track is designed to address specific industry challenges and advancements, providing consultants with critical insights and tools that can be directly applied to enhance their practices and client solutions.

Rural Infrastructure

This track addresses the vital role of developing resilient and sustainable roads and bridges in enhancing rural connectivity and accessibility. Emphasizing the strategic importance of transport infrastructure in rural development, sessions will explore innovative construction methods, sustainable materials, and cost-effective engineering solutions tailored for rural settings. Discussions will delve into overcoming challenges such as limited access, adverse geographical conditions, and funding constraints while showcasing successful case studies of impactful rural road and bridge projects. This track aims to foster collaboration between stakeholders to drive advancements that significantly improve rural mobility, boost economic activities, and link isolated communities to mainstream development paths.

Mass Rapid Transit (MRT)

For consultants focusing on public infrastructure and urban development, this track offers insights into the latest innovations in metro systems that enhance urban mobility and sustainability, crucial for comprehensive transport planning and implementation.

Innovative & Advanced Building Materials

The focus of this track will be on the latest innovations and advancements in building materials, including modern steel construction techniques. It will cover emerging materials that offer enhanced durability, sustainability, and cost-effectiveness, alongside traditional materials like steel that have undergone technological transformations. Participants will explore how these materials can be leveraged in various construction projects to achieve aesthetic, environmental, and structural excellence.

CONFERENCE HIGHLIGHTS

- ▶ Keynote Speeches: Hear from renowned speakers shedding light on global trends and the future of the construction industry.
- ▶ Panel Discussions: Engage in thought-provoking discussions on challenges, opportunities, and the future outlook of the industry.
- ▶ Exhibition Space: Explore an extensive exhibition showcasing the latest technologies, materials, and solutions from around the world.
- ▶ Interactive Workshops: Participate in hands-on workshops focusing on practical applications of new technologies and methodologies.

CALL FOR PAPER

We invite researchers, practitioners, and industry experts to submit papers and presentations on innovative research, case studies, and best practices related to the conference tracks. Submission guidelines and deadlines will be announced soon.

JOIN US

Be part of a dynamic community committed to driving change and innovation in the construction industry. The CIDC-ICC Conference 2024 is where the future of construction and environmental sustainability converges. We look forward to welcoming you in September 2024 for an event that promises to inspire, inform, and transform.

Each track is curated not only to inform but also to equip consultants with the knowledge and networks needed to elevate their consultancy practices, ensuring they remain at the forefront of industry developments and innovations. By participating in these discussions, consultants will enhance their ability to offer more strategic, informed, and innovative solutions to their clients, thereby advancing their careers and business opportunities in the competitive global marketplace. Moreover, the application of these advanced technologies and methodologies is designed to deliver tangible benefits not only in urban areas but also in rural settings. For instance, the integration of trenchless technologies can facilitate essential infrastructure developments with minimal disruption to the local environment and community, while the use of AI and IoT in projects can ensure more sustainable and efficient resource management in less accessible areas. Quality assurance and control tracks will ensure that projects, regardless of location, adhere to high standards, ultimately leading to safer, more reliable outcomes for end-users across diverse geographical contexts.

## SPONSORSHIP OPPORTUNITIES

This conference offers a unique opportunity for your organization to highlight its commitment to fostering innovation and sustainability in the construction industry. Various sponsorship packages are available, providing visibility and engagement options tailored to your goals.

### SPONSORSHIP FEE

Principal Sponsor	Rs. 10 Lakhs* / US\$ 16,000*
Main Sponsor	Rs. 8 Lakhs* / US\$ 12,000*
Associate Sponsor	Rs. 5 Lakhs* / US\$ 8,000*
Partner	Rs. 3 Lakhs* / US\$ 5,000*

\* GST extra as applicable

### DELEGATE FEE

ICC/CIDC/ECI Member Delegate	INR 5000*
Non-Member Delegate	INR 6000*
Student Delegate	INR 2500*

*Note: Group discount of 10% on nomination of 5 or more delegate.*
